

The Sacred Fool

Friday evening September 27. - Wednesday noon October 2. 2019
Seminarhotel Gruberhof im Tirol bei Mittersill

With Meredith Little and Team

The Trickster is honored and held sacred in cultures around the world. This Sacred Fool helps us step beyond the dualities and into the realm of creative imagination where there are new possibilities and shape-shifting flexibility to address a constantly changing world. When tradition and “truth” begin to hold us captive as the world changes around us, the Sacred Fool shakes our frightened minds into creative disruption to open the way for discovering our full humanity and ability to adapt.

Trickster, amoral and possessing no values, stands at the threshold of duality and our basic assumptions as master of the making and destroying of the “rules” that hold us back from appropriate action. All in the name of love for the people. Trickster will lie, steal, cheat and even die over and over again, for the benefit of the people and the ongoing health of life.

We are inviting you to celebrate the wisdom of the Sacred Fool who lies deep within each of us. Fools that we are, what happens when we release this master of illusion who is thought to have created the world with a lie? Mornings we sit in council, afternoons is time to cross the threshold and go out on the land, late afternoons we begin to hear the stories in the big council, and evenings the rest of the stories are heard in small groups.

Meredith Little

and her husband, Steven Foster, co-founded Rites of Passage Inc. in 1977 and The School of Lost Borders in 1981 – pioneering the methods and dynamics of modern pan-cultural passage rites in the wilderness, and “field therapy”. The essence of their work is captured in articles, chapters, an award-winning documentary film, and books that include: The Book of the Vision Quest, The Roaring of the Sacred River, The Four Shields: The Initiatory Seasons of Human Nature, and Lost Borders: Coming of Age in the Wilderness. Since Steven’s death in 2003, she continues both nationally and internationally to guide and train others in this work. Partnering now with Scott Eberle, founding a new arm of Lost Borders entitled "The Practice of Living and Dying" she hopes to crack open the taboos surrounding Death, and help restore dying to its natural place in the cycles of living.
